

Press Release

Vantage Towers appoints Tobias Steinig as Chief Information Officer

Düsseldorf, February 05, 2024 - Tobias Steinig will assume the role of Chief Information Officer ("CIO") of Vantage Towers AG ("Vantage Towers") with effect from February 01, 2024. In this role, he will lead the digital transformation of the European tower operator. In addition to the further development of existing systems, Steinig will also be responsible for standardizing the group-wide IT landscape. Steinig reports to CEO Christian Hillabrant and will be a member of the Executive Committee of Vantage Towers.

Christian Hillabrant, CEO of Vantage Towers: "As a tower company, we are contributing to the digital transformation in Europe on a daily basis. The foundation for this is, among other things, the ongoing digital transformation of our organization itself. To advance this even more consistently in future, we have created the new position of Chief Information Officer. We are delighted that we have been successful to attract Tobias Steinig, an experienced expert, and wish him every success in his new role."

Tobias Steinig, CIO of Vantage Towers: "I am delighted to become part of this successful and fast-growing company, which is a driving force of 4G and 5G expansion across Europe. Together with my team, I will dedicate myself to the task of further developing processes and IT solutions and ensuring that our digital infrastructure becomes even more efficient and resilient."

Steinig joins Vantage Towers from Dekra SE ("Dekra"). His most recent position at Dekra was Managing Director & Senior Vice President Global IT Infrastructure & Operations, where his responsibilities included the consistent harmonization and standardization of the global IT landscape. Prior to this, he was responsible for digital operations in senior positions at various international companies, including VOITH Robotics and KUKA.

About Vantage Towers

Vantage Towers is a leading tower company in Europe with more than 84,000 sites in ten countries, connecting people, businesses and devices in cities and rural areas. The company was founded in 2020 and is headquartered in Düsseldorf.

Vantage Towers' portfolio includes towers, masts, rooftop sites, distributed antenna systems (DAS) and small cells. By building, operating and leasing this infrastructure to MNOs or other network providers such as IoT companies or utilities, Vantage Towers is making a significant contribution to a better-connected Europe.

While already 100% of the grid electricity that Vantage Towers uses to operate its infrastructure is obtained from renewable energy sources, green energy generation is piloted directly on site with the help of solar panels and micro wind turbines, and also hydrogen solutions are under testing. This fits well into the overall strategy of the company to drive a
