## Andrea Weber appointed Chief Legal Officer of Vantage Towers AG

**Düsseldorf, May 02, 2024** – Andrea Weber has been appointed Chief Legal Officer ("CLO") of Vantage Towers AG ("Vantage Towers") effective 1 May 2024. Weber, who had already assumed the position of CLO on an interim basis in November 2023, is responsible for all legal matters at the tower company, including Compliance, Corporate Law and External Affairs. As CLO, Weber is a member of the Executive Committee of Vantage Towers and reports to CEO Christian Hillabrant. Weber succeeds Christian Sommer, who stepped down from the position at the end of 2023 at his own request.

**Christian Hillabrant, CEO of Vantage Towers:** "Andrea Weber took on the role of CLO at the end of last year and has been successfully contributing to our business development with her valuable legal expertise ever since. I am delighted that we have now been able to secure her for this important position on a long-term basis. I wish her every success in her new role."

**Andrea Weber, CLO of Vantage Towers:** "As one of Europe's leading tower companies, Vantage Towers operates in numerous jurisdictions. I am very much looking forward to further supporting Vantage Towers' dynamic growth in this complex environment."

Before Weber took on the role of CLO on an interim basis, she most recently held the role of Legal Director at Vantage Towers. She previously worked as attorney and in senior in-house positions as a corporate lawyer, including for Vodafone. In addition to two state law examinations, she holds a Master of Law (LL.M.) from Humboldt University in Berlin and an LL.M. from Albany Law School.

### About Vantage Towers

Vantage Towers is a leading tower company in Europe with more than 84,000 sites in ten countries, connecting people, businesses and devices in cities and rural areas. The company was founded in 2020 and is headquartered in Düsseldorf.

Vantage Towers' portfolio includes towers, masts, rooftop sites, distributed antenna systems (DAS) and small cells. By building, operating and leasing this infrastructure to MNOs or other network providers such as IoT companies or utilities, Vantage Towers is making a significant contribution to a better-connected Europe.

While already 100% of the grid electricity that Vantage Towers uses to operate its infrastructure is obtained from renewable energy sources, green energy generation is piloted directly on site with the help of solar panels and micro wind turbines, and also hydrogen solutions are under testing. This fits well into the overall strategy of the company to drive a sustainable digitalisation in Europe and to support partners through technological innovation in decarbonisation and achieving their climate goals.
